

PMP® Exam Prep Course

To succeed in business today, project managers need professional recognition for their experience, ability and skills.

SSI recognizes the need for project managers to achieve PMP® Certification and understands how valuable your time is. So instead of typical university programs that take months to complete, SSI's Curriculum will cover the same ground in just under six days!

We've created PMP® Preparation that fits your lifestyle; offering our course from 1 day in length up to 6 days depending on your schedule and budget. You'll get the same great preparation training, no matter what time frame you choose, with proven methods designed to help you pass the exam on the first try. These courses are fully aligned with PMI's "A Guide to the Project Management Body of Knowledge" (PMBOK®).

Online Mentoring and Review Session

SSI also offers online assistance in which you can chat with an experienced PMP® regarding any questions you may have prior to taking the exam. One month after completing your PMP® Exam Prep training with SSI, we will return to your organization for a one day Review Session. This refresher course will help to clarify any questions you might have prior to taking the exam.
